

DEPARTMENT OF ELECTRICAL (E&P) ENGINEERING

Laboratories

An electrical engineering laboratory provides a practical learning environment where students and professionals can experiment, test, and analyse electrical circuits and systems, gaining hands-on experience essential for careers in fields such as power, electronics, and telecommunications.

List of Laboratories:

Basic Electrical Engineering Laboratory

Room No: AF-04

Electrical Machine-1 Laboratory

Room No: CG-04

Electrical Machine-2 Laboratory

Room No: CG-05

Network Analysis Laboratory

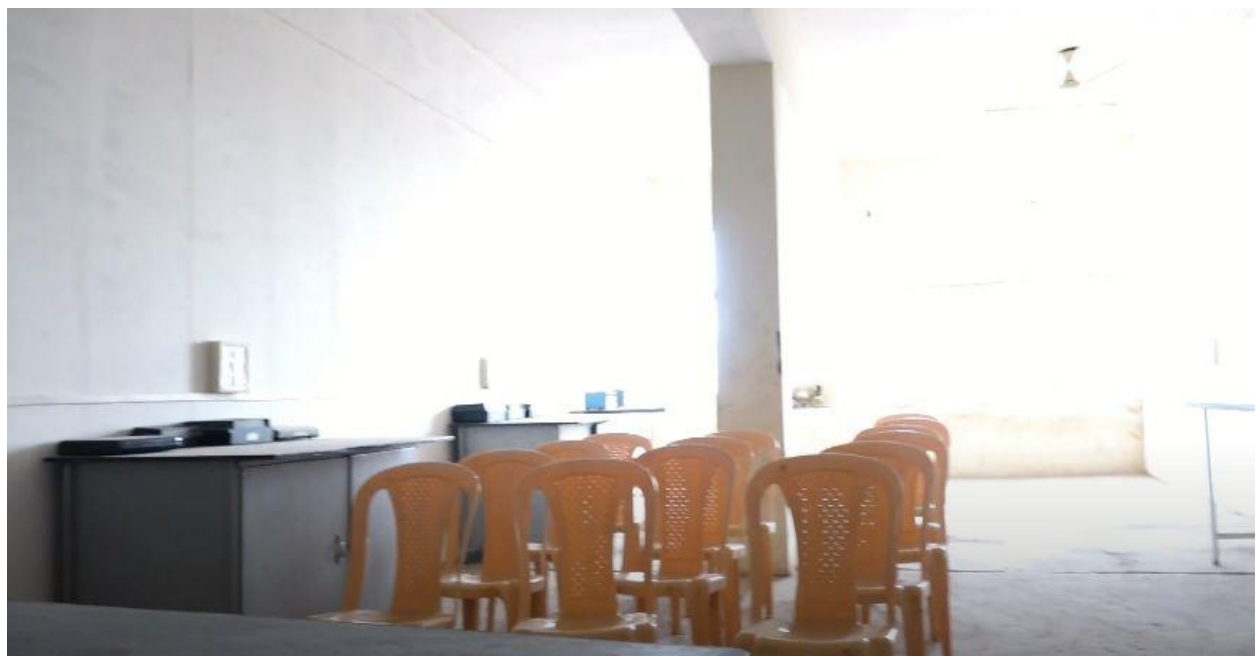

Room No: W1-4B

Electrical Measurement & Instrumentation Laboratory

Room No: CF-05

Electronics Devices And Circuit/Analog & Digital Circuit/ Control System Laboratory

Room No: W1-4C

Switchgear & Protection Lab

Room No: W1-4A
