

DEPARTMENT OF ELECTRICAL (E&P) ENGINEERING

Laboratories

An electrical engineering laboratory provides a practical learning environment where students and professionals can experiment, test, and analyse electrical circuits and systems, gaining hands-on experience essential for careers in fields such as power, electronics, and telecommunications.

List of Laboratories:

Basic Electrical Engineering Laboratory

Electrical Machine-1 Laboratory

Electrical Machine-2 Laboratory

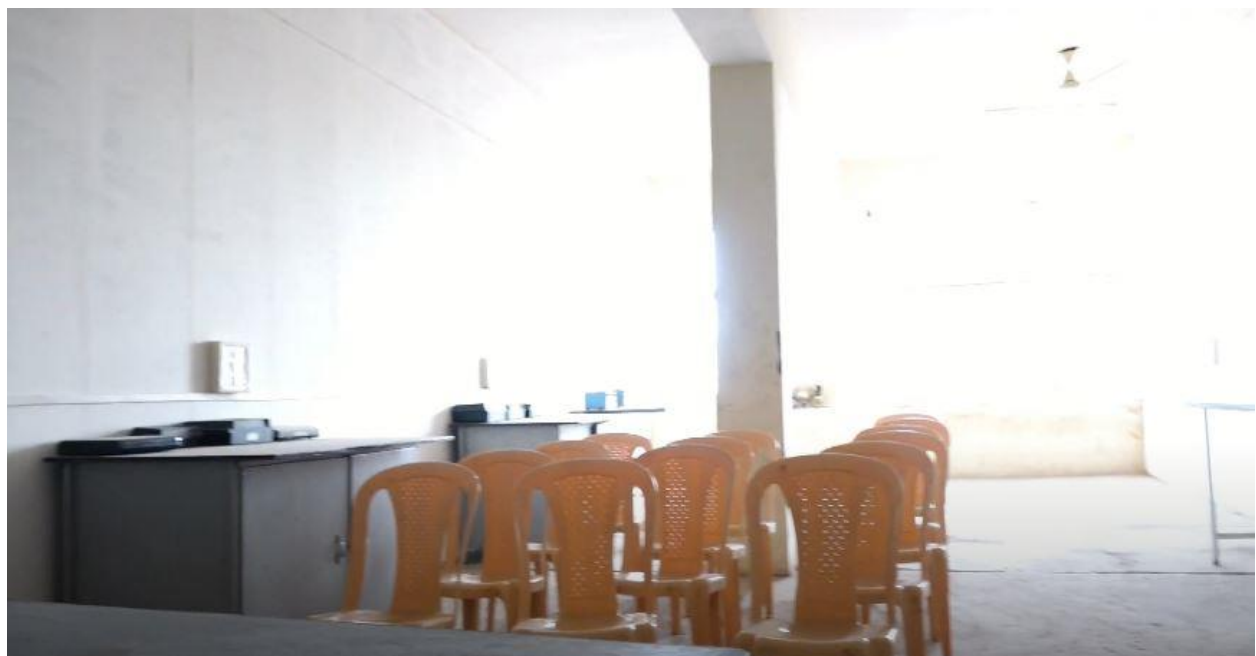

Network Analysis Laboratory

Electrical Measurement & Instrumentation Laboratory

Electronics Devices And Circuit/Analog & Digital Circuit/ Control System Laboratory

Switchgear & Protection Lab
